f.o.b. Chicago

**T**HE fruits of more than 10 years of Farmall experience and Farmall improvement are concentrated in the new McCormick-Deering Farmall 12. Here is true Farmall power, reduced in size, weight, capacity, and price, to take over the power problems on tens of thousands of small farms, and to serve as a handy auxiliary tractor on larger farms.

The Farmall 12 weighs only a little over a ton, yet it displaces four or more horses in field work. It handles all the operations in growing and harvesting all crops. It pulls a 16-inch plow bottom or two 10-inch bottoms.

We are glad we can offer our customers this efficient new Farmall 12 at its *surprising low price*. Take advantage of this opportunity to re-power your farm on a modern, low-cost-production basis. Investigate the Farmall 12 from every angle, check its usefulness and economy against horses or any other power.

Complete information will be supplied on request. Farmalls are now built in three sizes—a size for every farm.

## WARRANT FOR TOWN MEETING

---

York, ss.

To Wm. A. Totman, a Constable of the Town of Buxton,  
in the County of York and State of Maine,

GREETING:

In the name of the State of Maine, you are hereby requested to notify and warn the inhabitants of the said town of Buxton, qualified to vote in town affairs, to meet in the town house in said town of Buxton on Monday, the sixth day of March, A. D. 1933, at ten (10) o'clock in the forenoon, to act on the following articles:

Article 1. To choose a moderator to preside at said meeting.

Art. 2. To see if the town will vote to accept the reports of the several town officers.

Art. 3. To see if the town will vote to elect or have the selectmen appoint road commissioners for the ensuing year and how many.

Art. 4. To see if the town will combine the offices of treasurer and collector.

Art. 5. To choose town officers for the ensuing year.

Art. 6. To see how much money the town will vote to grant and raise for the support of common schools for the ensuing year.

Art. 7. To see how much money the town will vote to grant and raise for the support of free high school for the ensuing year.

Art. 8. To see how much money the town will vote to grant and raise for textbooks and school supplies.

Art. 9. To see how much money the town will vote to grant and raise for repairs of school buildings for the ensuing year.

Art. 10. To see how much money the town will vote to grant and raise for providing instruction in music in the schools.

Art. 11. To see how much money the town will vote to grant and raise to pay on loan granted at a special town meeting in 1930 for construction and equipping of new high school building and pay interest on same.

Art. 12. To see if the town will vote to authorize the selectmen and treasurer to renew any outstanding notes on the new high school building.

Art. 13. To see how much money the town will vote to grant and raise for miscellaneous expenses for the ensuing year.

Art. 14. To see how much money the town will vote to grant and raise for contingent expenses for the ensuing year.

Art. 15. To see what action the town will vote to take in regard to opening the town farm.

Art. 16. To see how much money the town will vote to grant and raise for the support of poor for the ensuing year.

Art. 17. To see how much money the town will vote to grant and raise for repairs of highways for the ensuing year.

Art. 18. To see how much money the town will vote to grant and raise for support of bridges and culverts for the ensuing year.

Art. 19. To see how much money the town will vote to grant and raise for snow removal for the ensuing year.

Art. 20. To see how much money the town will vote to grant and raise for cutting bushes for the ensuing year.

Art. 21. To see what price the town will vote to pay for highway labor for the ensuing year, including men, teams and trucks.

Art. 22. To see if the town will vote "yes" or "no" on the question of appropriating and raising money necessary to entitle the town to State aid as provided in Section 19, Chapter 25, Revised Statutes of 1916.

Art. 23. To see what sum, if any, the town will vote to raise in accordance with the provisions of Sections 26 to 32, inclusive, of Chapter 28 of the Revised Statutes for the construction of State aid three-town highway as outlined in the report of the State Highway Commission.

Art. 24. To see if the town will vote to authorize the assessors to rescind any amounts appropriated by the town for State aid highway construction in excess of the amount required to meet State apportionments.

Art. 25. To see what sum of money the town will vote to grant and raise for patrol maintenance for State aid highways for the ensuing year.

Art. 26. To see what sum of money the town will vote to grant and raise in connection with the money received from the State, for aid third class highways, as laid out by the State Highway Commissioners.

Art. 27. To see if the town will vote to grant and raise a sum of money for the maintenance of improved sections of third class highways for the ensuing year.

Art. 28. To see if the town will vote to grant and raise a sum of money for maintenance of special resolve highway for the ensuing year.

Art. 29. To see if the town will vote to grant and raise a sum of money, and if so how much, to repair the road known as the Standish Road, in the town of Buxton. This road serves the cottage owners on Bonny Eagle Pond, who pay taxes in the town. Believing that one of the greatest assets is our summer residents, we believe that the town would be justified in making such repairs. (Petition of George L. Stevens and twenty-five others.)

Art. 30. To see if the town will grant and raise a sum of money sufficient to correct the grade on Towle Street, in said town of Buxton, in order to prevent the drainage of ditch water upon the land of abutting owners and, if so, to determine the sum to be so raised and appropriated. (Petition of Mary B. Shepard and forty others.)

Art. 31. To see if the town will vote to grant and raise the sum of five hundred dollars (\$500.00) for graveling or repairs on so-called Haines Meadow Road leading from Buxton Center to the State road. (Petition of Sumner Tyler and eleven others.)

Art. 32. To see if the town of Buxton will vote to grant and raise the sum of five hundred dollars (\$500.00) to gravel the highway leading from the Saco line to Salmon Falls schoolhouse, known as the Simpson Road. (Petition of Edwin T. Plummer and eighteen others.)

Art. 33. To see if the town will vote to grant and raise the sum of twelve dollars (\$12.00) a year for electric bill at Dearborn Hill School. (Petition of Eddie E. Lewis and seventeen others.)

Art. 34. To see if the town will vote to grant and raise the sum of one thousand dollars (\$1,000.00) to pay the sum granted by loan at the special town meeting held Oct. 8, 1932, for repair of the sewer system at the Bar Mills School.

Art. 35. To see if the town will vote to transfer the unexpended balance of disposing of the mortgage on the George Page Box Company to the insurance account.

Art. 36. To see what sum of money the town will vote to grant and raise for the upkeep of fire engines, for firemen salaries and for firemen insurance.

Art. 37. To see if the town will vote to transfer the unexpended balance on the Chicopee Road account four dollars and seventy-four cents (\$4.74) to the highway account.

Art. 38. To see if the town will vote to grant and raise the sum of one hundred and fifty dollars (\$150.00) to be used with the unexpended balance from the Salmon and Union Falls bridges to paint the bridge at Bar Mills.

Art. 39. To see if the town will approve the tax collector and treasurer having office hours at the town house two days a week.

Art. 40. To see if the town will furnish the bond for treasurer and collector.

Art. 41. To see if the town will vote to open the polls at 9.00 A. M. and close same at 1.00 P. M., beginning March, 1934.

Art. 42. To see if the town will publish each year, on the back of the town report, the names of resident and non-resident taxpayers and the amount of tax paid.

Art. 43. To see what sum of money the town will vote to grant and raise for the use of the Berry Library for purchasing books. (Petition of Milton V. McAllister and twelve others.)

Art. 44. To see if the town will vote to grant and raise the sum of one hundred dollars (\$100.00) for additional repairs on the town farm building.

Art. 60. To see what action the town will take in regard to purchasing a hose truck and grant and raise money for same. (Request of Maurice R. Goodson.)

Art. 61. To see if the town will vote to appoint a committee to sell or rent the Page Box Mill. (Request of J. F. Sands.)

Art. 62. To see if the town will vote to charge 10% interest on all property bid in by the town on tax deeds. (Request of J. F. Sands.)

Art. 63. To see what action the town will take in regard to a budget committee.

Art. 64. To transact any other business that may legally come before said meeting.

The selectmen give notice that they will be in session at the selectmen's office on Saturday, March 4th, from 9.00 o'clock A. M. to 4.00 o'clock P. M., for the purpose of correcting the list of voters.

Fail not to make due service of this warrant and return your doings thereon at the time and place of meeting.

Given under our hands this fifteenth day of February, A. D. 1933.

GEORGE H. DAVIS,

NORMAN L. OWEN,

HOWARD G. WAKEFIELD,

Selectmen of Buxton.

## REPORT OF BUDGET COMMITTEE

## Buxton, Maine

The Budget Committee, after many meetings and carefully considering every article in the Town Warrant, make the following recommendations.

The taxes must be reduced, and we have recommended cutting all salaries and expenses and all special road work, except State road work, for which we may receive money from the State.

## REPORT OF BERRY LIBRARY

January 1, 1932, to January 1, 1933

### LIBRARY HOURS

Wednesday afternoon	1.30 to 5.00
Wednesday evening	6.30 to 8.30
Saturday afternoon	1.30 to 5.30

Number of books in circulation,	7,579
Largest number in one month, November,	790
Smallest number in one month, September,	458
Number of books purchased,	175
Number of books given,	100

Our circulation has not been as large this year, partly due to not having enough new fiction. Among the books purchased is a set of Compton's Pictured Encyclopedia, of 15 volumes, which is very attractive and is proving of much benefit.

A set of "My Book of History" for the children was purchased with money taken at a supper and entertainment. The children, under the direction of Mrs. Olive Hannaford, provided the entertainment and the sum of \$30.00 was raised.

We wish to thank Mr. Allan P. Stevens and friends for gifts of several books and pictures.

We also thank Mr. E. C. Carll, Dr. Wiley, Mr. S. B. Shepard, Mr. Cummings, Miss Nora A. Smith, Mrs. Annie Bradbury, Mrs. Walter Anderson, Mr. Raymond Tarbox, and Mr. Ralph Sawyer for books given. Among Mr. Sawyer's books are several on Electrical Engineering.

We have a copy of "Maine Highways" magazine sent by the State Library each month, and several other magazines for the Reading Table.

One book of poems, one book of fiction, and a copy of the "Maine Statutes for 1932" are missing. We would appre-

ciate it very much if they could be returned to the Library, and no fines need be paid.

With money received from fines, \$16.60, we purchased six books of fiction; the remainder was used for incidentals.

The floor of the Library has been varnished and new rubber runners were purchased. The outside of the building and the fence have been painted.

Respectfully submitted,

FANNIE E. TOWLE,

Librarian.

## REPORT OF WEST BUXTON PUBLIC LIBRARY

West Buxton, Me., Feb. 11, 1933.

The West Buxton Public Library offers the following report:

During the year ending December 31, 1932, the library has been open every Saturday afternoon from 1.30 to 5.00, with the exception of two weeks in February, when all public places were closed on account of scarlet fever.

We have approximately 1,500 books in circulation at the present time, having added 158 books by purchase and 175 books by gifts during the past year.

The largest number of books let out in one month was 634, in April, and the smallest number was 190, in February. Total number of books in circulation during the year, 4,639.

Three bookcases have been added at a total cost of \$21.00, part of this amount being covered by donations and by money received from fines and card fees.

We take this opportunity to thank friends and citizens for their support and coöperation.

Respectfully submitted,

ERSTON N. LIBBY,

Librarian.

## REPORT OF FIRE WARD

To the Municipal Officers and Citizens of Buxton :

I herewith submit my report as Fire Ward for the year ending February 7, 1933.

The number of fires covered by the Bar Mills Fire Department were 61, of which 32 were chimney fires.

I notice that our chimney fire calls increased two and one-half times more than last year. That increase leads one to believe one of two things. Either the citizens are relying more on the Fire Department or that they are neglecting to clean their chimneys out.

I realize of all years this year is perhaps a wrong time to expect the citizens of Buxton to authorize the purchase of a hose truck or Combination, so called. But I feel the necessity of one exists. We have about 2,300 feet of hose and of this amount we have to leave about one-half at the Fire House. One can readily see what can happen when we are called to a house fire and find when we arrive that we are two or three hundred feet of hose short. Someone has to drive back to the station and get more hose, and delays at a fire spell loss of property and everything else.

Our Pumper, which is rated as a ton and a quarter truck, weighs now with its load of hose and without any men on it, 8,470 lbs. Put ten or twelve men on that and we have some overload.

I know we can be more efficient to everyone in town and more so to those in outlying districts where water is usually some ways off, and most always we need all the hose we can get. For these reasons and lots more I believe this request should be given your careful thought and consideration. And I hope you will see this as I do and authorize the purchase of this piece of equipment.

I will say also that the firemen unanimously voted to take a 25c an hour reduction in their pay at their last meeting.

They felt this would be in accord with the rest of the reductions in town and I know you will find these men ready to serve you at all times in any way that they can.

Respectfully submitted,

MAURICE R. GOODSON,

Fire Ward.

## REPORT OF DEPUTY FOREST FIRE WARDEN

To the Municipal Officers and Citizens of Buxton:

I herewith submit my report as Deputy Forest Fire Warden for the year ending February 7, 1933.

I have issued 20 permits to burn brush and slash this past year.

We had one fire of four hours' duration in Buxton at Brailey's, with practically no loss.

Respectfully submitted,

MAURICE R. GOODSON,

Deputy Forest Fire Warden.

## **REPORT OF SUPERINTENDENT OF SCHOOLS**

To the Superintending School Committee and Citizens of the  
Town of Buxton:

The annual report is herewith submitted.

Today it is evident that we must adjust our schools to a general program of economy and relief from taxation. Yet we cannot afford to lower our educational standards. We can cut down the costs in various ways. We can shorten the school year and we can reduce salaries. Yet a radical reduction in salaries may mean a reduction in efficiency. It is hard for us to compute the real value of our schools in dollars, or the service to the community of those teachers who have devoted many years to the work. Their salaries never have been high, compared with those paid in other professions. Our teaching force is well trained and efficient as the result of years of experience. The work that they accomplish points to their ability.

In our High School, this year's enrollment is the largest in the history of the school. Owing to the increased enrollment the per capita cost has decreased. We must keep in mind the fact that we are still a three-teacher school, with each teacher carrying an increased load. This situation would justify the salaries paid, and the total cost for a school of this size is by no means excessive. It would seem that we are the class of many four- and five-teacher high schools. The amount of work has increased in all school activities. The condition of the school, with only a few leaving school, indicates the interest of the students in the school, and the successful work of the teachers.

We are sure that the teachers realize their responsibility regardless of the salaries paid to carry on the work to the best of their ability, and maintain the best standard possible under existing conditions, even if salaries are reduced to the levels

of the pre-war period. However, we also recognize the situation from the standpoint of the taxpayer. It is hoped that by coöperation we may escape the situation in which many towns find themselves at this time, whereby the work is retarded and the teachers unpaid through lack of funds. We should give the matter careful attention and avoid the extreme conditions, i.e., too rigid economy on the one hand or failure to cut down the costs where there is urgent need.

We are confronted by a situation in which all sources of revenue have been greatly reduced. This is true of the State resources. The valuation of the State (\$757,289,579.00 in 1930) has been reduced over sixty million dollars. The amount of the State school fund to be apportioned to the schools will be reduced approximately \$260,000.00. It is estimated that this will affect the apportionment to the towns by 18-20%. It is necessary for us to face this emergency and recognize this situation as inevitable. It would seem that there is no other way by which we can deal with this condition save by cutting costs. It is hoped that there will be no reductions so drastic as to interfere with school progress. Our first consideration should be to conserve the welfare of our community. For our future good we must guard against any action that may cause the children in our communities to suffer a serious educational set-back. Curtailment beyond a certain point ceases to be economy.

Experience has taught us that schools run at too low costs in teachers' salaries may be very expensive in the end, and educationally may mean an irreparable loss to pupils. Changes in teachers many times have been costly experiments. Lower salaries in the long run will have a tendency to lower our requirements in training and impair classroom instruction. Let us remember that our schools are of vital importance to the community and that any reduction in salaries would only affect the individual taxpayer only slightly. In order to effect a substantial saving, a considerable reduction should be made in all departments.

At the beginning of the Fall Term it was reported that the

water in the well at the Bar Mills School was unfit for drinking purposes. Dr. Elmer Campbell, engineer of the State Health Dept., was called to Bar Mills, and the drainage and sewage disposal were inspected. A new septic tank and a new system of sewage disposal were recommended. Tests of the water were made and it was found that the water was polluted by colon bacilli, nitrites, and ammonia (evidence of organic matter). It was deemed necessary to call a special town meeting to present the situation to the citizens. A special town meeting was called on October 8th. It was voted to construct a septic tank and a suitable sewerage system, and raise \$1,000.00 for this work. A septic tank of concrete was constructed and a sewer line of 520 feet of extra heavy soil pipe was laid. This was a great improvement over the old tile system and the inadequate septic tank which were contaminating the soil and a source of danger not only to the school, but also to the entire community. The new work should last a long time and protect the community from any further contamination. A great advance has been made in the last 20 years in the construction of septic tanks and sewerage systems.

On January 17th the water was shown to be suitable for drinking purposes as the result of tests which were taken at three different intervals. This was a fortunate situation for the town, as the cost of drilling a new well was avoided. The well has been thoroughly cleaned out and the soil treated with lime and the well and reservoir thoroughly disinfected with chloride of lime. So there should be no further contamination of the water. However, tests will be made from time to time and checks made to detect any possible pollution. During the interval while the water supply was being cleared up, drinking water was secured from the tested well of Mr. Perley Berry. The work of clearing up the contamination in the well and the reconstruction of the sewerage system was done under the direction of Dr. A. G. Wiley.

It was found that a number of other wells from which the schools were obtaining drinking water were contaminated to a certain degree. Steps were taken to remedy the situation and

secure pure water for the schools. Evidence of a slight pollution by organic matter was found in the test of water from the well at the High School. The septic tank was cleaned out and a new line of extra heavy soil pipe was laid, so that all danger of any future contamination will be avoided.

The plumbing system at Bar Mills was found to be in an unsanitary condition. It was found necessary to replace worn-out plumbing with new material and new wall drinking fountains were installed, separate from lavatories.

### BASEBALL FIELD

For years we have needed an athletic field near the high school building. This year it was our good fortune to have Mr. Clough not only give us the use of his field for baseball, but Mr. Clough also very generously gave us \$50.00 for the development of the field. Principal Jewett, the students, and others, gave a large amount of time for this work. We are pleased to mention an additional gift of \$30.00 from Mr. Clough, which was used in building a trophy case for the numerous trophies which the school has won since Mr. Jewett has been principal. We appreciate the interest that Mr. Clough has shown in the schools and his assistance in promoting school activities through other gifts.

The parking space in front of the high school was gravelled by Principal Jewett and the students. We appreciated the use of trucks and the assistance which was received in doing this work which was a great improvement over the former condition.

### SCHOOL CLINIC AT BUXTON-HOLLIS HOSPITAL

We are fortunate in these communities to have the service that is rendered at the School Clinic at the Buxton and Hollis Hospital.

Some very effective work has been accomplished at the school clinic this year. Over 300 children have received treatment and check-up at the Dental Clinic. The usual amount of work has been done in tonsil and adenoid cases. The worthwhile work that has been done at the Dental Clinic is in line with what is being done in progressive school systems in

the cities. This work is of value and importance in being conducive to improved health and consequently to improved school attendance. In many cases this work would not have been done if the School Clinic had not been available, owing to the cost, even in urgent cases. We have been well repaid for the money raised at town meeting for this purpose in the remedial work of the dental clinic alone. It is hoped that in the future more of this work can be done for the school child. Health is one of the first objectives in Child Welfare. It is conceded that the benefit derived from funds spent for health is greater than that from money spent for any other public service. Re-examination is necessary to find the defects that should be corrected. This work has a tendency to create an interest in the community in preventative as well as in remedial measures, and control of sickness is made easier. Prompt treatment and isolation of many cases of diseases reported at the hospital have been a part of the health program.

The loyal support which our schools are receiving in the present situation is appreciated.

Respectfully submitted,

GEORGE E. JACK,

Superintendent.

## ANNOUNCEMENT

---

As I have transferred my prescription file to Dr. Norman E. Hill, Congress Building, Corner Congress and High Streets, Portland, Maine., he now has a complete Optical record of each of my former patrons.

Dr. Hill is very thorough in his examinations; and his location in the same building with the American Optical Company, enables him to have made for you, within a few hours, any new lenses or replacements you may require.

This is much quicker service than I have been able to render and no doubt will be of advantage to you.

M. F. DEARBORN

EAST LIMINGTON, MAINE.
